Sheffield City Council: Stop the closure of Park Library

Park Library is a thriving, successful public library. Sheffield city council has threatened it for closure despite being one of the busiest libraries in Sheffield. The library runs activities and acts as a community centre, especially for those without easy access to the internet. The planned closure will affect the neighbourhood and the staff who work so hard to make Park library such an essential part of the local area. We the undersigned believe that Park library should be kept open and fully supported by Sheffield City Council.
