

The Sheffield Green

Working for the local community
Sheffield Council Elections May 6th - Broomhall Edition

The Green team working with you

We knock on doors year round, help people with problems (casework) and keep in touch with community groups like the **Hanover** and **Upper Springs TARAs**, the **Broomhall Centre** and **Broomhall Forum**. We attend a "Group of Groups" which unites different groups working to keep young people out of trouble. Green Party volunteers deliver a quarterly newsletter so people know what we are doing and how to contact us.

New crossing connects communities

There have been muggings in the underpass on **Hanover Way**. We worked with local people to get the Highways department to install an over-ground crossing so people can walk safely to and from the **Springfield** estate and **The Moor**.

Lower parking permit prices

We support permit parking schemes (which discourage commuter parking) and campaigned for cheaper permits. When the price was cut to £10 per year for people outside the ring-road, Green councillors helped residents on **Gell St** to petition the council to reduce theirs too. We supported the review of the **Broomhall parking scheme** to identify problems.

Dorset St Playground

Residents in the **Upper Springs** area wanted a better playground. Green Cllrs worked with Sheffield Homes to start a Tenants Association which planned the new playground – as well as many other activities.

We also made sure that the new university building next to it will still include a footpath up to **Glossop Road**.

Streetlamp deters antisocial behaviour

Residents on **Victoria Street** were being troubled by intruders in their yards. Green councillors helped them get an extra street lamp and security lighting to deter anti-social behaviour. The lamp will also make the top end of **Gell St** playground safer.

Greens are the winning team

Council Candidate Rob Unwin

In every election since 2004 Green Party candidates have been elected in Central Ward. Local residents say they have noticed an improvement in the area over this time, streets are generally cleaner and there is less crime. We are not complacent though, we know there are plenty more things we can do to make this area better.

Last Central Ward Election Result

Rob Murphy (GREEN) 1611

Labour 1563

Lib Dem 522

Con 311

Council elections in this ward are a close battle between the Greens and Labour. The Lib Dems have always finished third. (Jillian Creasy is standing to be an MP)

GREENS MAKE A DIFFERENCE CITYWIDE

In this year's Council Budget we proposed:

- * **No job losses**, by offering voluntary part-time working
- * **£10 million** "invest to save" for insulation and renewable energy for homes and council buildings
- * An extra **free city centre bus** connecting to the Hallamshire and Children's Hospital and Universities
- * More money for **pedestrian crossings**
- * A **free bulky waste collection service**

GREENS CHALLENGE THE OTHER PARTIES ON THE COUNCIL

We opposed the Labour Government on:

- * Expensive ID card plans
- * Post Office closures
- * Privatisation of Public Services
- * War

Rob Unwin on a Stop the War march

We opposed the Lib Dem council on:

- * Cuts to jobs and services, such as opening hours at Highfield Library (right)
- * Moving transport money away from areas of need
- * Plans to close local school Abbeydale Grange (right)
- * Removing public transport priorities
- * Their blocking of wind farm proposals
