

“ There are a lot of people who are really worried ... people will end up turning to crime. They're going to shoplift because they can't afford food. ”

Louise, Sheffield mum

“ ...it is a bit of a tragedy because the libraries supported me so much when I didn't have money for anything else. I couldn't afford to buy books, I did all my research in the libraries... there are so many things libraries do... ”

Gavin, Sheffield author

There is an alternative

Many people are struggling to get by on low pay and suffering from the loss of essential support. The Government is telling us that there is no alternative to painful cuts. They say we are “all in it together”. But the bankers who caused the recession are richer than ever.

The decision to make massive cuts is a political choice. There is an alternative that could create good jobs and a stronger economy. There is an alternative to create a fairer, greener future. It would mean a better future for everyone and it's our choice. Please join us.

Sheffield Green Party
working together for a
fairer, greener, future

“ What would a Green Party Government mean? ”

More teachers

Support for local business

Youth centres

Libraries open

More jobs

NHS

More houses

Citizens Pension

Free elderly care

“ Where would the money come from? ”

Make polluters pay

£24 billion

Cut Trident
£6 billion

Fair Taxes

£45 billion

Sheffield Green Party does everything it can through our councillors and campaigns to reduce the impact of cuts. Nationally we argue for this fairer, greener, alternative.
