

GREENS CAN WIN IN BROOMHILL!

Broomhill ward last election result 2012. % of the vote change from 2011.

IT'S BETWEEN GREENS AND LABOUR
 The Green Party can beat Labour here. You can help elect Broomhill's first Green Councillor on May 22nd!
EVERY VOTE COUNTS

Brian Webster Broomhill ward candidate

I'm a postgraduate student at the University of Sheffield, and have worked and studied locally for 7 years. I've been working to support the local community for 4 years, listening to the needs of residents and community groups.

Many people tell me they feel let down by Labour councillors who voted through plans that will force Broomhill and Upperthorpe libraries to be run by volunteers. Greens have offered consistent practical help and advice to local campaign groups, as well as putting forward citywide alternatives to library cuts.

Councillors have an important role as council services and budgets are scaled back. If you elect me, I will continue to work hard to protect the most vulnerable and to preserve vital community services in Broomhill ward.

Broomhill ward last election result 2012
 Greens were just 201 votes behind Labour!

Sheffield Council and European Parliament Elections Thursday 22nd May 2014

ELECT BRIAN WEBSTER

BUILDING A GREEN TEAM

If elected, Brian will join Green Cllrs Jillian Creasy (above left) and Rob Murphy on Sheffield City Council. Brian works with Bernard Little (above right), Jon Ashe, Eamonn Ward and others in a strong Broomhill team.

In the European Parliament election, Andrew Cooper (above right with the European candidate team) can become the first Green MEP in this region under the proportional representation system.

CHOOSE GREEN

 REPRESENT PEOPLE	 GREEN councillors stand up for local residents on traffic, parking, crime, planning and licensing. We give information and help people influence how services are provided.	 LABOUR council is passing on government cuts without proper consultation or offering an alternative.
 JOBS NOT CUTS	 GREENS would invest in jobs, tax the wealthy and close tax loopholes. We favour local shops and businesses because they keep money in Sheffield.	 LABOUR did not regulate the banks and has not said they would stop cuts in public services and welfare.
 LOWER BILLS	 GREENS invest in energy saving, insulating homes, and renewable energy. This cuts bills and CO2 emissions. Recent floods show climate change is a real threat.	 LABOUR rejected a GREEN plan to use government subsidies to fit solar panels on 1,000 council homes, to cut bills and create jobs.
 STOP PROFIT-EERING	 GREENS argue against privatising council services and try to bring them back in house. When private companies come in, we hold them to account.	 LABOUR privatised academy schools and parts of the NHS; huge profits are made while austerity cuts bite.

GREEN ACTION

Green councillors put their principles into practice and offer real alternatives. In this year's council budget we proposed cuts to parking permit prices and executive pay and investing £5 million to cut fuel bills. We called for a referendum to raise council tax by just 48p a week for most homes in order to save vital care for the elderly and disabled, keep all libraries open and help those on the lowest incomes. With more Green councillors we could get these ideas through.

Green pressure over recent years has led to the big new 20mph zone in Crookesmoor and Uppertorpe. 20mph speed limits on residential roads (other than main routes) make

the streets safer for all road users, especially children. Brian supports the continuing work by Broomhill Forum to address poor air quality – there are dangerous hot spots in Broomhill and on Ecclesall Road.
